

I am writing in opposition to proposed changes in regulations on broadcast outlet ownership! These changes would result in even further consolidation of media outlets--and of the "voices" that would subsequently be heard. It is important in a place of democratic government where the people are expected to be informed and to select representation based on that information, for the information readily available to be balanced and present many viewpoints. Already we have seen some squelching of perspectives that should be represented at the table of public opinion and conversation.

Further media consolidation in the United States will succeed only in limiting the number of voices available to citizens, adversely affecting our democracy. Please do not make this change in FCC regulations!
